- Made in Germany
- Custom panels: Widths from 25.2" to 48", up to 1-5/8" thick, and lengths up to 140".

**About BauBuche:** BauBuche is a laminated veneer lumber made from locally sourced beech manufactured exclusively by Pollmeier in Germany. BauBuche is produced in a completely new, yet highly economical process. Peeled veneer layers of 3mm in thickness are parallel or cross-laminated and turned into beams, boards, panels and flooring elements. The high surface quality makes BauBuche ideally suited for visible construction elements.

**Other custom widths and lengths are available with lead time from Germany.**

**green LABEL sustainable** These HI products promote using materials from sustainable forests.

**Warranty:** We warranty all of our butcher blocks & counter tops. For more details visit: [www.hardwoodind.com/custom-glued/](http://www.hardwoodind.com/custom-glued/)
